

Dear friends & esteemed colleagues,

It's with great pleasure that we want to invite you to a new scientific initiative:
the Genome Integrity Italian Network (GiiN).

We hope to have you as active members of this community that aims to harness the newfound opportunity of virtual connectivity to bring together national and international laboratories that work in the field of genome stability. Our mission is to discuss and showcase the latest findings, as well as promote mobility, collaborations and opportunities for all colleagues working in our field.

We have organized a series of monthly Zoom webinars, with the upcoming meeting on:

Tuesday, October 12th 2021 – 17:00

Marina Mapelli, Ph.D.

EIO, Italy

“Molecular crosstalk between fate determination and orientation in epithelial cell divisions”

Daniele Fachinetti, Ph.D.

Curie, France

“Centromeric DNA: there is more than meet the eye”

The calendar for the opening series of GiiN events is attached at the end. The 2021-2022 series is under the kind patronage of *AIRC Foundation for Cancer Research*.

Please, share this information and forward these flyers to your team, Department and Institution and all relevant contacts. For more information, to help out and to suggest speakers for future meetings, feel free to reach us at GenomeIntegrityItaly@gmail.com.

We look forward to seeing you next week. All the best,

Simona and Stefano

Genome Integrity Webinar Series

A Virtual Forum for the GiiN Community

Organized by

Genome integrity italian Network

Connect every second Tuesday of the month at 5 PM CEST for a 1-hour virtual meeting to hear from national and international scientists about the latest, cutting-edge research in the field of genome stability.

A copy of the virtual program and instructions to connect to our webinars are provided below. For more information, to volunteer for our network or to be added to our mailing list, contact us at GenomeIntegrityItaly@gmail.com
